

A Letter to the Sheboygan County community:

We want to update you on an important development related to Kohler Co.'s plans to build an 18-hole, public golf course on company-owned land in Sheboygan County. Because the City of Sheboygan is in a fiscally stable position to serve as a host community for a world-class golf destination, we have made the decision to publish a notice of our intent to circulate a petition to annex the property to the City.

It is in our County's best interest to have a project like this, which would create hundreds of jobs and a multimillion-dollar positive economic impact, come to flourish in a fiscally stable municipality. The City of Sheboygan is able to provide long-term the appropriate level of services to both the project and residents.

The annexation process is outlined by state law. Even with annexation, many things would not change, including Kohler Co.'s commitment to sustainable and responsible operations. The Wisconsin Department of Natural Resources and the U.S. Army Corps of Engineers will continue to have oversight of this project. Accordingly, we will be following all applicable state and federal regulations.

Kohler Co. has a strong track record of business success and environmental stewardship, which we are steadfast in bringing to this new venture. A study showed our proposed golf course would create the equivalent of 227 full-time jobs and have an annual economic impact of \$20.6 million for Sheboygan County. The project now has the potential to boost the City of Sheboygan's tax base while continuing to support the local school district.

Thank you for taking the time to read this message; I hope that this update is helpful. If you'd like to learn more, please email us at info@ProposedGolfCourse.com or visit www.ProposedGolfCourse.com. We look forward to the next steps in the annexation process, and to having the land our company has owned for more than 75 years open to the public.

Sincerely,

Dirk Willis
Group Director of Golf
Hospitality and Real Estate
Kohler Co.
